KX-TDE100/200
Converged IP-PBX

Panasonic ideas for life

Intelligent, Versatile Communications Solutions

Enhance your business with a solution designed to meet your needs with mobility, network applications and a common infrastructure that helps connects your users, wherever they may be. Straight forward and smooth migration is the key for upgrading to converged solutions. KX-TDE100/200 systems can easily be upgraded to take advantage of all the new benefits. Manage a single system, or multiple systems from any location, and benefit from lower costs and increased business productivity. Now that the rules have changed, you can have the advantage.
The KX-TDE100/200 are powerful and versatile communication systems that will easily adapt to any business, providing solutions that will improve the way your business communicates.

Converged Solution

The KX-TDE100/200's converged architecture is extremely versatile, providing multiple options to meet the expansion needs of your growing business. To increase the system capacity, the free slot design allows you to add cards to accommodate additional extensions, COs, or features, or you can also expand the system by adding licenses to activate the system's built-in virtual IP ports. The converged architecture provides easy, cost-effective solutions to meet your expansion needs, so you can grow your communications network without having to purchase a new system.

Maximum System Capacities*		
	Total Number of CO Lines	Total Number of Extensions
KX-TDE100	128	128
KX-TDE200	128	256

System capacities will vary depending on the type of interface that is used to connect to the system.
Freedom, with Great Clarity

DECT Multi-Cell Wireless Handsets

Enjoy superb mobility no matter where you work. Whether it's in an office, warehouse, supermarket or other large facility, Panasonic Multi-cell DECT system phones keep you in touch with customers and colleagues, even when you have to leave your work area. Need a tough phone for tough environments? Our ruggedized, shock-resistant model features dust and splash protection and stands up to accidental drops and spills.

Features that keep you connected

- ■ **Blue Backlit Display – Readable even in sunlight**
- ■ **Illuminated Keypad – Easy operation in all lighting conditions**
- ■ **Easy Menu Navigation Joystick and large icons make single-handed operation a breeze**
- ■ **Programmable Keys**
- ■ Personal Telephone Directory with up to 100 entries
- ■ Access Company Directory with up to 1000 Entries on your Panasonic Communication System
- ■ Built-in Speakerphone
- ■ 3 Reminder Calls / Alarm Clock

Feature-Rich, Attractive and Easy to Use

Panasonic has phones perfect for your budget and needs. No matter which phone you choose, each is equipped with the standard features that will help you achieve new levels of communication ease. For greater convenience, choose from our line of high-end phones equipped with large LCD displays with soft key functionality.

IP Telephones

The Panasonic IP telephony solution integrates your remote employees and locations by giving them easy access to your corporation's central communication hub, letting them enjoy the feature-rich capabilities of the KX-TDE Converged IP PBX.

Self Labeling LCD
(KX-NT366 Only)

The KX-NT366 IP System telephone features 12 flexible buttons, with an LCD screen located to the left row of the button. Each item can be named on the LCD screen through personal or system programming to reflect the function of its corresponding button. Using the "Next Page" key you can change the function and the display of the 12 flexible buttons up to 4 times for a total of 48 different functions.

Bluetooth® Headset Compatible

Mounting the optional KX-NT307 Bluetooth® module lets you connect a commercially available Bluetooth headset for hands free voice communications. You can also answer and end calls using a compatible Bluetooth headset.

24-Character LCD

Bluetooth® Module (KX-NT307 option)

Message/ Ringer Lamp

Double-Tilt Design
The double-tilt design lets you adjust the base unit and LCD angles to match desks, tables, or any location. The base unit can be adjusted in eight steps, and the LCD moves separately to optimize the viewing angle.

• Speakerphone
• 2 Ethernet Ports (100Base-T)
• Power Over Ethernet (PoE)
• Voice Encryption

Peer-to-Peer Communications

Simply connect the KX-TDE100 or KX-TDE200 for automatic Peer-to-Peer configuration. Once an IP to IP call is established, the call reverts to a peer-to-peer connection freeing up system recourses. In addition, this makes moving an IP telephone from one office to another within the same network a plug and play operation.

Double Tilt Design

The double tilt design lets you adjust the base unit and LCD angles to match the height of a desk, table or any location the phone is placed. The base unit can be adjusted in eight steps and the LCD moves separately to optimize your viewing angle.

Second Ethernet Port

All of the KX-NT300 series telephones are equipped with a second Ethernet port. This reduces cable clutter on your desk and eliminates cost for cabling or additional equipment required to install a second Ethernet port.

KX-NT303 Optional Module

• 12 Additional Programmable Key Module

KX-NT305 Optional Module

• 60 Additional Programmable Key Module (KX-NT346 and NT343 only)

KX-DT300 Series Digital Telephones

Not ready to configure for IP? Our new KX-DT300-series line of digital telephones is a fully-featured alternative to the NT300 series.

Messaging Solutions

The KX-TDE100/200 is a truly integrated system, connecting your dispersed, off-location offices and employees, while giving you full access to the system's incredibly rich and varied features. Your employees can use the latest in communication technology, and you can manage and maintain your network to your exact specifications.

Panasonic integrated solutions provide a wide variety of options that allow you to design a system that will meet your current and future business requirements – saving you time and money, and maintaining employee and customer satisfaction.
Integrated Messaging Solutions

Get an edge in handling your customers' calls with integrated messaging solutions which automates your message delivery so your customers can get the quick and easy support they deserve. You also benefit from a system that takes messages automatically and keeps you in touch 24 hours a day. And of course, you'll love the cost savings.

Email Integration for Voice Mail with Auto Attendant

e-message

By adding a KX-TVA series voice processing system, your calls can be easily managed by using the built-in automated attendant service, voice mail with email integration, and more. And with complete integration between the KX-TVA and the KX-TDE100/200, you can enjoy features like voice mail LCD menus that allow you to access and manage your voice mailbox using the LCD display and soft keys. With all these choices, it's easy to custom design a system that's right for you.

KX-TVA200

- 4 to 24 Ports and 1024 Mailboxes
- 1000-Hour System Recording Time
- E-message
- Telephone LCD Voice Mail Menu
- Customer Service
- Live Call Screening (LCS)
- Two-Way Recording
- Two-Way Transfer
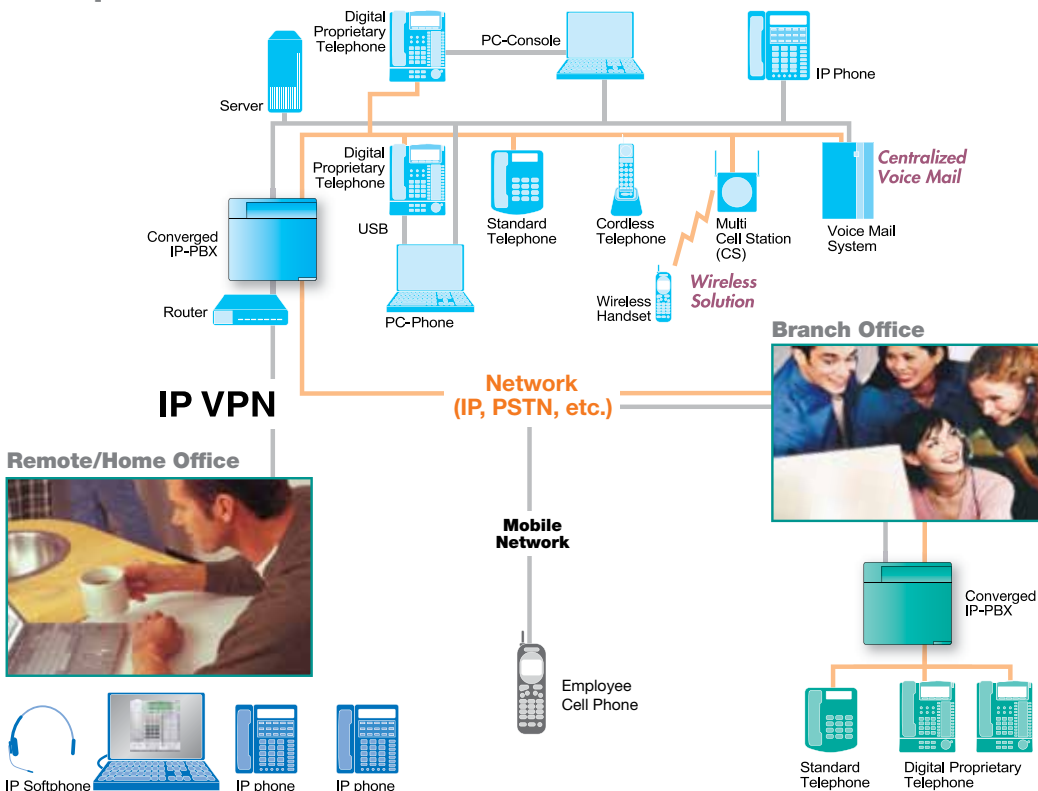

Networking Solutions

Flexible networking solutions let you build your company's office and employee structure for the 21st century: employees can telecommute and satellite offices can be brought under a single, easily managed network. The KX-TDE 100/200 lets you choose the communication medium that works best for your business, such as VoIP, which is the latest proven technology for voice communications, and is an ideal solution for site-to-site communications between multi-site offices, as well as for networking branch offices and remote employees.

For businesses with multiple locations, our systems can be networked together using advanced IP technology or ISDN. The KX-TDE 100/200 supports centralized voice mail, which services all phones within the network with features like Network BLF, which allows you to view the status of extensions in other locations. Wireless station roaming is also supported, letting you register a wireless phone to a maximum of 4 KX-TDE systems, letting you go to other offices and receive calls directed to them on their wireless station.

By combining rich voice communications with enterprise data networks and applications, Panasonic helps you accomplish your most important business objective - delivering lower costs and enhanced value from your network infrastructure investment.

Call Center Solutions

The KX-TDE100/200 lets you achieve cost-effective call center management with built-in call center functions combined with monitoring and report functions.

Your phone calls can be distributed and organized according to purpose and priority, making your call center more efficient while treating your customers right. Monitor employee performance with the KX-NCV200's powerful information reports. Calls can be queued while your team is busy with other calls, and music or prerecorded promotional messages can be played for waiting callers to help reduce lost calls and missed business opportunities.

You can also assign an additional backup destination for calls that are not answered within a specific period of time. Preferred customers and VIPs can even have their calls connected with priority or to a specific staff member, allowing you to provide special attention to special clients.

Achieve cost-effective call center management with built-in call center functions combined with monitoring and report functions.

Built-in Call Center Features

Achieve efficient, cost-effective call center management with the TDE100/200's built-in call center functions. In addition to its powerful monitoring and reports functions, the system can organize and distribute calls according to purpose and priority, making your call center more efficient while maximizing customer service.

Calls can be queued while your team is busy with other calls, and music or prerecorded promotional messages can be played for waiting callers to help reduce lost calls and missed business opportunities. You can also assign an additional backup destination for calls that are not answered within a specific period of time. Preferred customers and VIPs can even have their calls priority routed to specific staff members, allowing you to provide special attention to special clients.
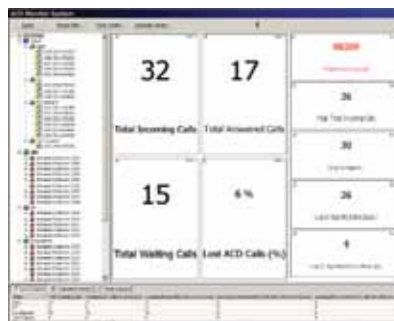

### Monitoring and Reporting

KX-NCV200 ACD Report Server
- **Reports are Made and Status is Displayed in Supervisor's PC**
- The NCV200 ACD report server brings call center functions to your KX-TDE100/200, providing you with monitoring and performance reports, call information history, and agent log-in. It's easy to optimize call center management with NCV200's readable and comprehensive performance reports.

CTI Solutions

The KX-TDE100/200 is compatible with two incredibly useful programs that will improve the way your business communicates.
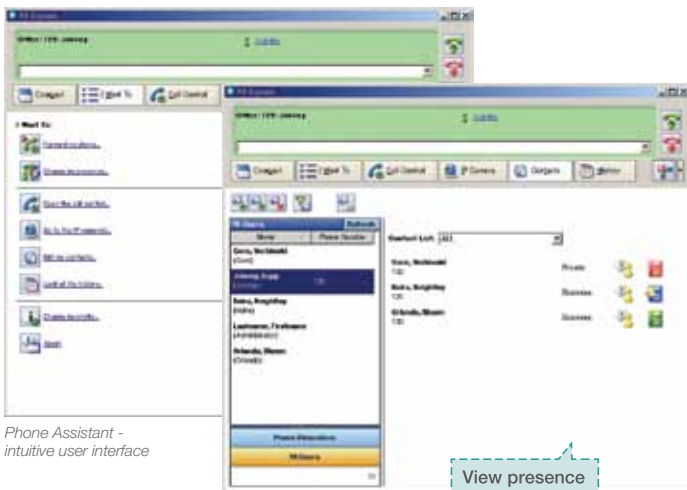

The Outlook USB plug-in lets you control your KX-TDE Converged IP PBX system through Microsoft Outlook®. The Outlook USB plug-in brings two important communications tools together, saving you time and making your office communications easier than ever.

The Panasonic Phone Assistant gives you highly desirable features such as presence, real-time view of all phone activities for managers and team leaders, wizards to help with most common telephony operations, and an intuitive web interface for easy TDE PBX configuration. All this combines to make the Phone Assistant applications an indispensable business productivity tool.

Phone Assistant

By providing on-screen call related information like Caller ID, and the calling party's name, and allowing users to simply point-and-click or use keyboard shortcuts to quickly handle calls, users are able to do more in less time, increasing personal productivity.

- **Confirm colleague availability and presence**
- **Easy access to system phone functions**
- **Integration with IP Camera**
- **Dial easily with your database**
- **Record conversations directly into Voice Mail (TVA50/200 & NCV200)**

Phone Assistant - intuitive user interface

View presence & availability.

Phone Assistant Status

Business managers, supervisors, and team leaders can benefit from real-time monitoring of all team member telephony communication activities. The Phone Assistant Status application allows monitoring of up to 128 users (combination of phone assistant users or normal phone extensions) with complete presence and availability information, making it perfect for any informal call center.

- **Monitor Employee Phone Status/Usage**
- **Extended Reporting Capabilities**

Outlook Add-in USB Software

Simplify your office communications with the Outlook USB plug-in, which lets you control your KX-TDE IP PBX system through Outlook. The plug-in resides as a toolbar in Outlook where you can place internal and external calls, answer or drop calls, and more. You can even use many of Outlook's email features for the KX-TDE, like scheduling automatic call forwarding using the Outlook calendar, and making calls straight from your Outlook contacts list.

- **Access Phone features through Outlook Drop-down Menus**
- **Dial Calls using Outlook's Contacts List**
- **Schedule Automatic Call Forwarding using Outlook's Calendar**
- **Answer, Hold, Transfer, or Drop Calls from your PC**
- **Works with Panasonic KX-TDE IP PBX Systems and KX-T7633/T7636 Phones**
- **Easy to Set-up and Use**

KX-TDA0350 VoIP Softphone*

- Allows a PC to Operate as a system telephone
- Emulates a KX-NT136 Telephone
- 24 Programmable CO Keys with Dual Color Indicators
- 6-Line Alphanumeric Display with Interactive Soft Keys
- Easy-to-Use Keyboard or Mouse Operation
- Message Waiting Indicator for VM
- Network Connection Indicator

Requires a VPN connection and additional hardware.

Versatile Connectivity Options for the 21st Century Workplace

SIP Phones:
Increase Connection Options while Lowering Costs.

The Panasonic KX-HGT100 uses the latest SIP (Session Initiation Protocol) technology, helping to lower business telephone costs and simplify communication management. It supports local office users or remote workers, connecting over high-speed broadband IP networks from virtually anywhere. Ideal for companies with geographically diverse office locations.

KX-HGT100-B

IP Conferencing Phones:
Get the Most out of Your Conference Calls.

With ever-tightening budgets, busy schedules, deadlines, traffic jams and geographically dispersed offices, telephone conferences are proven time and money savers. Maximize your productivity with the Panasonic KX-NT700 IP Conference Phone. Enjoy hi-def sound while benefiting from ingenious features such as the ability to record calls on an SD card, Real Time Slow Talk, which slows down the speech of fast talkers, and Noise-Reduction Technolgy.

KX-NT700

Excellent Reliability

The KX-TDE100/200 and associated equipment are Panasonic Communications Company of North America certified dealer models. Visit www.Panasonic.com/ecs to locate a certified dealer near you.

The KX-TDE100/200 is assured by rigorous quality control and extensive testing before it leaves the factory, and comes with a 2-year warranty. The KX-TDE100/200 is RoHS compliant, an international standard which restricts the use of six hazardous materials in the manufacturing of electronic equipment.

Programming & Maintenance

Panasonic certified technicians use a Windows-based programming tool with multiple password-protected access points to program the system and perform maintenance. The system can also be accessed remotely via an optional dial-up modem or through the Internet.

Secure Digital (SD) Card

Even if your system suffers a catastrophic failure, all of your system information is saved and can be reloaded easily with our Secure Digital (SD) card. In addition, the SD card makes it simple to upgrade the system with new features.
