Introducing the TC-2000 PABX. Simple, Flexible and Easy-to-use. Perfect for successful companies with the need for an advanced telephone communication system.

The TC2000 PABX will be your best investment. It boasts of useful functions found on high-end systems at a reasonable price.

STANDARD FEATURES

CALL TRANSFER - Calls can be transferred to any local. The calling party is put on-hold while the answering party checks with the intended recipient whether to accept or reject the incoming call.

ON-HOLD MELODY DURING CALL TRANSFER - While transferring, the calling party will hear the 'on-hold' melody, notifying him that his call is being attended to.

CALL PRIVACY - With the TC2000 PABX, it is not possible for another party to listen to (accidentally or otherwise) conversations from other locals.

INTERCOM - Local to local calls can be made without utilizing an outside line.

OPERATOR FUNCTION - Operator local(s) may be assigned to receive incoming calls.

CALL PICK-UP - Any local may pick-up an incoming call through the 'Call Pick-up Code'.

UNIQUE FEATURES

COST-EFFICIENT - No need to buy special phones. The TC2000 PABX works with most landline phones.

AUTOMATIC LINE ACCESS - No need to check for line availability. The next free line is accessed automatically by just picking up the unit.

AUTO ATTENDANT (OGM / DISA) - Callers can make direct inward call/s without operator assistance through the outgoing message system, which can be recorded with your own voice.

HIGHLIGHTS

- **Easy to Install**
  Electrical connections are simple. They can be installed by any electrician.

- **One-year Full Warranty**
  One-year warranty covering parts and labor comes standard with our TC2000 PABX systems. Additionally, service units are on standby in the unlikely event that your TC2000 PABX breaks down.

- **Built-in Memory**
  The built-in memory retains all programming information in case of power outage.

- **Power Failure Functionality**
  In case of power failure, three locals will continue to function as direct lines for three outside lines (in the case of a 3 x 8 unit).

- **Practicality**
  All the important features of a telephone system at a reasonable price.

- **Hassle-Free**
  Maintainance-free operation. Once programmed, there is no need to reprogram it - ever!

SPECIFICATIONS

#			
1.	Capacity:	CO Lines	: 3 to 8
		Locals	: 8 to 64
2.	Communication Lines		: 7 to 16
3.	Transmission Attributes		: Extension to Extension =< 1.5dB
			Extension to CO Line =< 2.0 dB
4.	Ringing Voltage		: 75V
5.	Feeding Current		: 48V - 60V / 25mA
6.	Relative unbalance against ground		: 300Hz - 600Hz >= 40dB
			600Hz - 3,400Hz >= 46dB
7.	Dialing Mode		: DTMF
8.	Power Supply		: AC220V
9.	Power Consumption		: =<15VA
10.	Operational Environment		: Temperature : 32F - 104F
			Relative Humidity =<90%
